# ABOUT EAGLE

BASED IN THE UK AND AUSTRALIA, WE HAVE AN ESTABLISHED PRESENCE IN EMERGING INTERNATIONAL MARKETS.

OUR SERVICE AND PRODUCTS DIVISION PROVIDE OUR CLIENTS WITH A BREADTH OF TECHNOLOGY-BASED SOLUTIONS TO MEET THEIR SAFETY, SECURITY AND INTEGRITY.

OUR KEY MARKETS ARE EMERGENCY SERVICES, DEFENCE AND SECURITY, INFRASTRUCTURE AND POWER GENERATION.

OUR CUSTOMERS ARE PREDOMINANTLY GOVERNMENT ORGANISATIONS, INCLUDING DEFENCE DEPARTMENTS, AS WELL AS INTERNATIONAL CUSTOMERS IN OTHER TARGET SECTORS.

# EAGLE SERVICES

**Defence & Security**

**Emergency & Response**

**Medical**

**Infrastructure**

A soldier in full tactical gear, including a helmet and a vest with multiple pouches, is shown from the side. The soldier is holding a handgun. The background is dark with a bright, out-of-focus light source on the right, creating a dramatic effect. The text "DEFENCE & SECURITY" is overlaid in large, white, bold letters.

# DEFENCE & SECURITY

Eagle, alongside its international partners, has developed state-of-the-art technology in both asset protection and intelligent manufacturing know-how. In addition, our bespoke modification of the world's leading automotive marques is world renown.

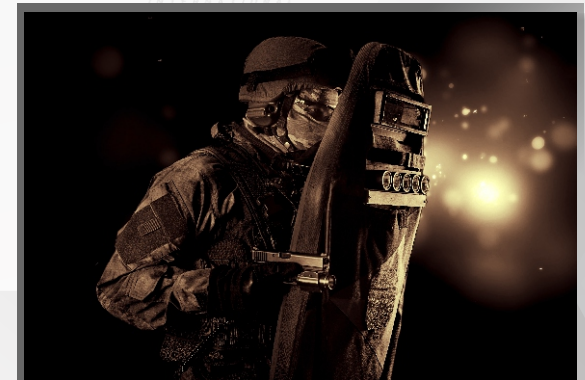

# DEFENCE & SECURITY SERVICE

We help customers to maintain their edge by exploiting advanced technologies and peerless build quality to create a range of Defence and Security vehicles and tools that perform difficult tasks in dangerous and threatening environments.

The range of threats facing our customers is diverse and evolving quicker than ever. We have a heritage of providing services and technical solutions to the protection realm with a full range of research, advice, and assessment services that support physical protective measures for Government, Civil and Military platforms.

# PROTECTION SOLUTIONS

Understanding mission needs and the challenges facing our customers, we provide physical protection solutions which integrate the latest technologies.

From add-on armour or ballistic protection, including anti-IED, to the smart use of protection technology, we improve the performance of protection systems.

Our advanced technologies ensure that equipment and vehicles we provide are the most resilient and reliable in the market, keeping safe those who specifically rely on it.

Eagle's defence vehicles meet all requirements of STANAG's, OTAN standards, UNE standards, NM standards and MIL-STD.

# CYBER INVESTIGATION AND DIGITAL FORENSIC LABORATORIES

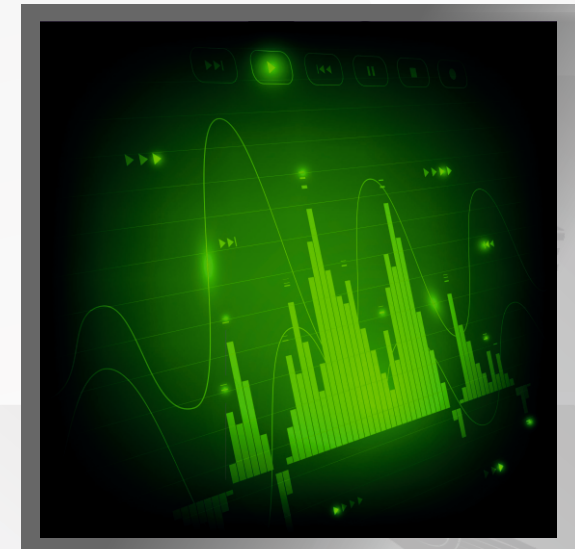

## CYBER SECURITY

Eagle International and our consortium team deliver Cyber Investigation and Digital Forensic Laboratories for those operating in emerging markets.

## BEST IN CLASS EXPERTS

Our turn-key offering provides the ability to develop in-house capacity whilst building on the countries specific sovereign capability. Training and Transfer of Technology are a critical element, fully supporting each clients' ability to develop its own advancements.

# EMERGENCY & RESPONSE

We are a leading global supplier of ambulance and specialist vehicles, and products, to private medical and healthcare markets worldwide.

# EMERGENCY AND RESPONSE

Our A&E Ambulances deliver a functional environment with abundant storage space. The trauma wall provides a flexible environment able to accommodate a vast array of Emergency Life Saving Equipment. Vehicles have full bullfight and siren systems, and full diamond-grade retro reflective livery fitted to ensure conspicuousness during response scenarios.

Interiors can accommodate a stretcher in 2 positions, have 3 or 4 'M1' compliant Tip/Fold seats and wheelchair restraints with a 3rd anchorage point. Hydraulic suspension and a ramp provide for easy loading of stretchers and wheelchairs, with a remote controlled winch fitted to assist if required.

Eagle have supplied a range of Ambulance conversions through its subsidiary and Partner Networks throughout the UK, Europe, the Middle East and Asia-Pacific. We know that quality and ergonomic design is paramount in creating a bespoke ambulance conversion.

This is why our conversions feature the latest design, technology and materials resulting in a flawless conversion, manufactured solely to your specifications. Our dedicated design team ensure your needs are met in every aspect, providing the perfect working environment.

# OUR EMERGENCY VEHICLE RANGE

**A & E AMBULANCE**

**HDU AMBULANCE**

**PTS AMBULANCE**

**4 X 4 RAPID RESPONSE**

# SPECIALIST VEHICLES

**MILITARY AMBULANCE**

**PARAMEDIC, RESCUE & INCIDENT RESPONSE**  
*Military Ambulance*

At Eagle International, we recognise the needs of ECP's, Paramedics, Doctors and other specialists. We work with you and your stakeholders to create innovative response vehicles that match your organisation's approach to rapid first line response.

A key element of any health- or life-threatening incident is to get medical staff on-scene quickly, equipped and able to deliver first line diagnosis and treatment.

**DISASTER RELIEF VEHICLES**

**DISASTER RELIEF VEHICLES**  
*Rough Terrain Military Vehicle*

Eagle's Disaster Relief Vehicles are designed for the more remote and inhospitable regions, and for those working in hazardous environments.

Eagle works with organisations to design, commission, build and equip rescue vehicles including Mountain Rescue, HART, flood and fire incident units, 4x4/multi-stretcher vehicles, military response vehicles and disaster trailers.

**CRASH TENDER VEHICLES**

**CRASH TENDER VEHICLES**

Airport crash tenders are extremely powerful machines, offering strong acceleration for their size and weight.

Able to negotiate rough terrain, vehicles carry large capacities of water and fire fighting foam, are fitted with powerful high-capacity pumps and water/foam cannons, and are capable of delivering firefighting media over long distances.

They can be mounted on 4x4, 6x6, or 8x8 wheeled chassis. In order to decrease their turning radius, the 8x8 wheeled unit may have all four front wheels steerable.

# INFRASTRUCTURE

Eagle International offers expertise and specialist assistance in infrastructural projects, and experience working with government and private sector clients, as well as partnership formation in competing for major international tenders.

# DESIGN - BUILD - EQUIP

A simple ethos substantiated with project-based evidence.

## DESIGN

With the business know-how and independent thinking of our engineers, along with the technical expertise of our strategic partners, Eagle is well placed to offer innovative turnkey solutions across a range of industries. These include; manufacturing, power generation, forensic testing facilities, explosive testing facilities and pharmaceuticals.

We are dedicated to supplying our clients with cost effective solutions that ensure safety, throughput, efficiency and quality.

# DESIGN - BUILD - EQUIP

A simple ethos substantiated with project-based evidence.

## BUILD

We are a global provider of solution-focused, bespoke build services with experience across a number of sectors:

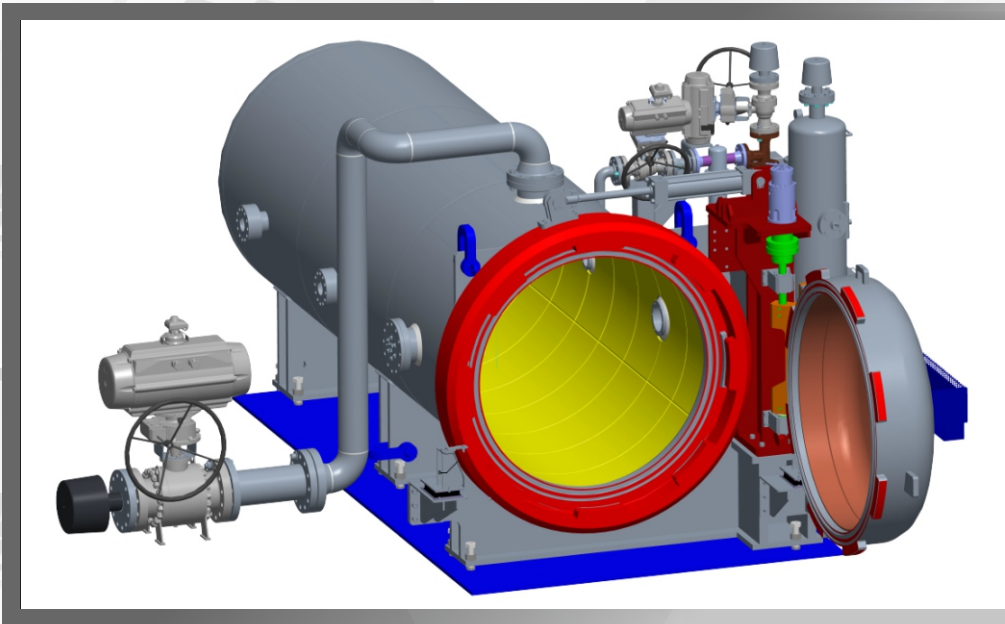

- Pharmaceutical Plants
- Power Generation Plants
- Fast-Moving Consumer Goods (FMCG)
- Forensic and Ballistic Testing Facilities
- Mobile and Static Laboratories

In conjunction with our build services, Eagle is able to offer specialist training, procedure and process design for implementation and operation post-build.

# DESIGN - BUILD - EQUIP

A simple ethos substantiated with project-based evidence.

## EQUIP

Eagle is a world-renowned specialist in equipping manufacturing and testing facilities. Our research and development team and partners put laboratory testing techniques at the forefront of the latest technological thinking.

Our services cater for testing facilities that deliver nano-quantity analysis and microorganism determination for regulatory enforcement and investigation.

Eagle's mobile and static laboratories permit detailed study of the behaviour of materials and structures under shock stress such as crashes, ballistic impacts and blasts to assist development of reliable and capable products.

# MEDICAL

Our range of personal protection equipment (PPE) and human performance, health, and wellness products are proven winners. Our PPE range of products are helping to make a difference in healthcare professionals' and patients' lives. Moreover, our range of PPE products are well established and produced to meet BSI and American standards. We've focused our portfolio on priority areas in creating products that reflect the Eagle ethos; proven quality and innovation.

# VENTILATORS

Our High-end Medical Invasive and Non-invasive Ventilators range have silent and robust turbines, precise algorithm ATT, High Precision Air-oxygen mixers, and a variety of propositional ventilation modes. Manual selection between bright and soft interfaces makes it easier to detect changes with patient ventilation insuring simpler operational use.

In the event a patients' breathing has not reached the preset tidal volume, our device will automatically raise the respiratory pressure to reach the correct tidal volume. This ensures the stability of tidal volume regardless of any resistance change. All of our ventilators are fully internationally compliant and conforms with most European and American Regulatory Authorities

# PAINPRO

The PainPro is a cutting edge medical device, designed to relieve pain, strengthen muscles, and restore tissue, all in minutes.

Incorporating over 50 years of medical science and the very latest in technological developments, including the unique BMWT technology, the PainPro provides pain relief and tissue restoration that is scientifically evidenced.

Trusted by physiotherapists, PainPro technology has been proven to provide immediate pain relief to a wide variety of injuries and ailments, allowing anyone, from athletes to retirees, to live a more active lifestyle for longer.

## The PainPro is made for:

- Age Related Restrictions
- Pregnancy
- Sports Men & Women
- Rehab Patients
- Arthritis Sufferers

# SPONSORSHIP

## Excellence In Performance Innovation

At Eagle we are proud of our ethos and in pursuit of excellence in performance innovation and our agility to respond to each customers specific needs.

These outstanding qualities make our brand the ideal partner for polo and Black Eagles, a team which continually sets the performance bar for others to follow in a sport where stamina, performance and dynamism win out.

Team Black Eagles have a string of outstanding winning performances in major competitions. These include representing Cartier in winning the World Cup Triple Crown in St. Moritz, Switzerland for three consecutive years, an achievement no other team has equalled.
